

## **Construction Industry Scaffolders Record Scheme**

### **Part 1**

This entails taking a CITB Health, Safety and Environment test and one of the following:

- 1. CISRS Operatives Training Scheme (COTS) Course
- 2. 2 week Scaffold Induction Course
- 3. Part 1 and also completing an application form endorsed by your employer.

This initial card lasts 18 months and within this time frame the operative must commence their formal training and complete a minimum of CISRS Part 1 Course (2 weeks off site training at a CISRS approved provider).

This will allow the operative to apply for a 2nd Trainee card which will last a further 18 months in which time the operative must complete their CISRS Part 2 (2 weeks off site training at a CISRS approved provider) the Level 2 Access and Rigging Operations S/NVQ and a CISRS 1-day Skills Test.

### **Part 2**

When the operative has completed all of the above and have a current CITB Health, Safety and Environment test they are entitled to apply for his CISRS Scaffolders card.

### **Advanced**

Once the operative has held their Scaffolders card for a 12 month period, they will then attend their Advanced course (weeks off site training at a CISRS approved provider), complete their Level 3 Access and Rigging Operations S/NVQ, pass the CISRS 2-day Skills Test, complete a further CITB Health, Safety and Environment test and can then apply for their Advanced card.
